

API Documentation

1. Registrasi User

HTTP Method : POST

URL : <http://test-nawatech.dev.com/api/register>

Description : User dapat melakukan registrasi menggunakan endpoint registrasi ini

Body Request :

Key	Value
name	tester
email	test@mail.com
password	123456789
password_confirmation	123456789

Response

```
{
  "data": {
    "name": "test",
    "email": "test@mail.com",
    "updated_at": "2023-03-01T02:23:50.000000Z",
    "created_at": "2023-03-01T02:23:50.000000Z",
    "id": 1
  },
  "access_token": "1|UnJk3wGBgHnWu566FrdYgIgnW2yl2HZwE02jfLXR",
  "token_type": "Bearer"
}
```

2. Login User

HTTP Method : POST

URL : <http://test-nawatech.dev.com/api/login>

Description : User dapat melakukan login menggunakan endpoint login ini

Body Request :

Key	Value
email	test@mail.com
password	123456789

Response

```
{
  "message": "Hi test, welcome to home",
  "access_token": "2|om0DjwSp9GWQunkYvRr9omKlEayk7z1eyGgxGp4G",
  "token_type": "Bearer"
}
```

3. Order

HTTP Method : POST

URL : <http://test-nawatech.dev.com/api/order>

Description : User dapat melakukan order product menggunakan endpoint order ini dengan menggunakan authorization Bearer Token.

Body Request :

Key	Value
invoice_number	INV001
product_id[0]	1
qty[0]	5
subtotal[0]	40000
product_id[1]	3
qty[1]	5
subtotal[1]	70000
user_id	1
total	110000

Response

```

{
  "message": "Success",
  "data": {
    "invoice_number": "INV98765",
    "product_id": "2",
    "qty": "4",
    "subtotal": "200000",
    "user_id": "1",
    "total": "607110",
    "updated_at": "2023-03-01T04:57:42.000000Z",
    "created_at": "2023-03-01T04:57:42.000000Z",
    "id": 14
  }
}

```

4. Show Order

HTTP Method : GET

URL : http://test-nawatech.dev.com/api/order/{invoice_number}

Description : User dapat melakukan pengecekan product yang telah diorder menggunakan endpoint ini dengan menggunakan authorization Bearer Token

Response :

```

{
  "message": "Success",
  "data": [
    {
      "id": 13,
      "invoice_number": "INV98765",
      "product_id": 1,
      "qty": 5,
      "subtotal": 407110,
      "user_id": 1,
      "total": 607110,
      "created_at": "2023-03-01T04:57:42.000000Z",
      "updated_at": "2023-03-01T04:57:42.000000Z"
    },
    {
      "id": 14,
      "invoice_number": "INV98765",
      "product_id": 2,
      "qty": 4,
      "subtotal": 200000,
      "user_id": 1,
      "total": 607110,
      "created_at": "2023-03-01T04:57:42.000000Z",
      "updated_at": "2023-03-01T04:57:42.000000Z"
    }
  ]
}

```

5. Cancel Order

HTTP Method : DELETE

URL : http://test-nawatech.dev.com/api/order/{invoice_number}

Description : User dapat melakukan pengecekan product yang telah diorder menggunakan endpoint ini dengan menggunakan authorization Bearer Token

Response :

```
{
  "message": "Order INV123 has been canceled"
}
```

6. Log Order

HTTP Method : GET

URL : http://test-nawatech.dev.com/api/order/{invoice_number}

Description : Backend dapat melihat log dari orderan user

Response :

```
{
  "message": "success",
  "data": [
    {
      "id": 4,
      "subject": "Create order with invoice number : INV98765",
      "url": "http://test-nawatech.dev.com/api/order",
      "method": "POST",
      "ip": "127.0.0.1",
      "agent": "PostmanRuntime/7.29.2",
      "user_id": 1,
      "created_at": "2023-03-01T04:57:42.000000Z",
      "updated_at": "2023-03-01T04:57:42.000000Z"
    },
    {
      "id": 3,
      "subject": "INV9876",
      "url": "http://test-nawatech.dev.com/api/order",
      "method": "POST",
      "ip": "127.0.0.1",
      "agent": "PostmanRuntime/7.29.2",
      "user_id": 1,
      "created_at": "2023-03-01T04:57:09.000000Z",
      "updated_at": "2023-03-01T04:57:09.000000Z"
    },
    {
      "id": 2,
      "subject": "Log",
      "url": "http://test-nawatech.dev.com/api/logs",
      "method": "GET",
      "ip": "127.0.0.1",
      "agent": "PostmanRuntime/7.29.2",
      "user_id": 1,
      "created_at": "2023-03-01T04:53:03.000000Z",
      "updated_at": "2023-03-01T04:53:03.000000Z"
    }
